Goa,

A DESTINATION THAT HAS NEVER GONE OUT OF STYLE.

Goa isn't just India's favourite holiday escape – it's a thriving powerhouse at the intersection of tourism, economy and infrastructure. With over 1 crore visitors in 2024, a booming hospitality sector and a ₹25,000+ crore infrastructure push, Goa sits firmly on the golden median where lifestyle meets long-term investment potential. Its timeless appeal is now backed by future-ready development, making it not just a place to visit, but a place to own.

INDIA'S MOST-LOVED STATE, GOA

The only state to feature in the Top 15 Global Travel Destinations. Exclusive tourism-driven economy, projected to contribute ₹1.08 lakh crore to the GDP by 2025. With over 1 crore tourists in 2024 (20% Y-o-Y growth rate), there has been an uptick in the demand for premium hospitality and divergent experiences.

LEISURE, AT ITS BEST

Goa stands out with the swankiest 32+ 5-star hotels, with brands like Taj, W, The Westin and Radisson Blu. It also hosts the revered Michelin Star restaurant, Cavatina Cuchina, among others which include The Black Sheep Bistro, The Fisherman's Wharf and party hubs such as Cantare, LPK Waterfront and SinQ, drawing the finest consumers from across the globe.

THE GOAN CONUNDRUM: AVAILABILITY OF CLEAR-TITLED PROJECTS

Goa remains one of India's most desirable real estate destinations – yet, paradoxically, one of the hardest to buy into. Most real estate projects are fragmented, under litigation, or lack clear land titles, making legally sound, investment-grade opportunities extremely scarce. This supply gap has created a premium on legitimate offerings, driving both demand and long-term value.

DUAL AIRPORT STATE

Mopa International Airport handled more than 47 lakh passengers in 2024 which is expected to rise to 77 lakh in the coming years. With a 232 acre Aerocity planned around the airport, the entire region is getting transformed with an expected surge in real estate prices in North Goa by 27%.

POWER-PACKED INVESTMENTS

With ₹25,000 crore of Public-Private Partnership (PPP) investments in Goa and areas in proximity to the Mopa Airport are slated to increase by upto 27% to 30%. Strategic vision, policies, infrastructure and tourism have transformed Goa into a lucrative investor's paradise. The momentum is undeniable and the next wave of growth is already taking shape.

A **41% spike in bookings** for properties priced above ₹7,000 per night and **95% peak season occupancy** in the luxury segment are clear indicators of surging demand.

What's even more compelling? Over 1 crore visitors explored Goa in 2024, **further driving rental yields, capital appreciation and premium real estate demand.**

“

Goa's magnetic mix of natural beauty, international appeal and infrastructure growth makes it the perfect confluence of lifestyle and investment.

Goa,

THE NEXT ECONOMIC HOTSPOT, PRIMED
FOR EXPLOSIVE GROWTH.

Investments to the tune of ₹25,000 crore by the government towards infrastructure development, with highway expansions and infrastructure projects, including 6 lane Mumbai Bengaluru Expressway, NH-66 (New Mumbai-Goa Highway), 6-lane Nagpur-Goa Highway, Delhi-Mumbai Expressway and the dual airports to significantly ease accessibility and reduced travel times, driving greater demand and appreciation.

GOVERNMENT POLICIES AND INITIATIVES.

Global Business Summit 2024

Attended by over 150 international delegations for creation of 500+ new business opportunities for local entrepreneurs. Goa International Travel Mart (GITM) held once a year, currently in its 4th edition, aims to promote regenerative, spiritual and hinterland tourism, thus widening Goa's tourism scope. Goa Department of Tourism and MakeMyTrip signed a MoU, a first of its kind to promote Goa's lesser-known inland tourism spots. By 2029, Goa aims to become India's carbon credit capital, attracting ₹1,000 crore in green manufacturing investments and creating over 10,000 jobs.

INDIA'S MINI SILICON VALLEY IN GOA:

A mini Silicon Valley will be established in the state by the Central government working with the Goa government, to develop a framework to draw high-tech firms, such as data centres and semiconductor facilities.

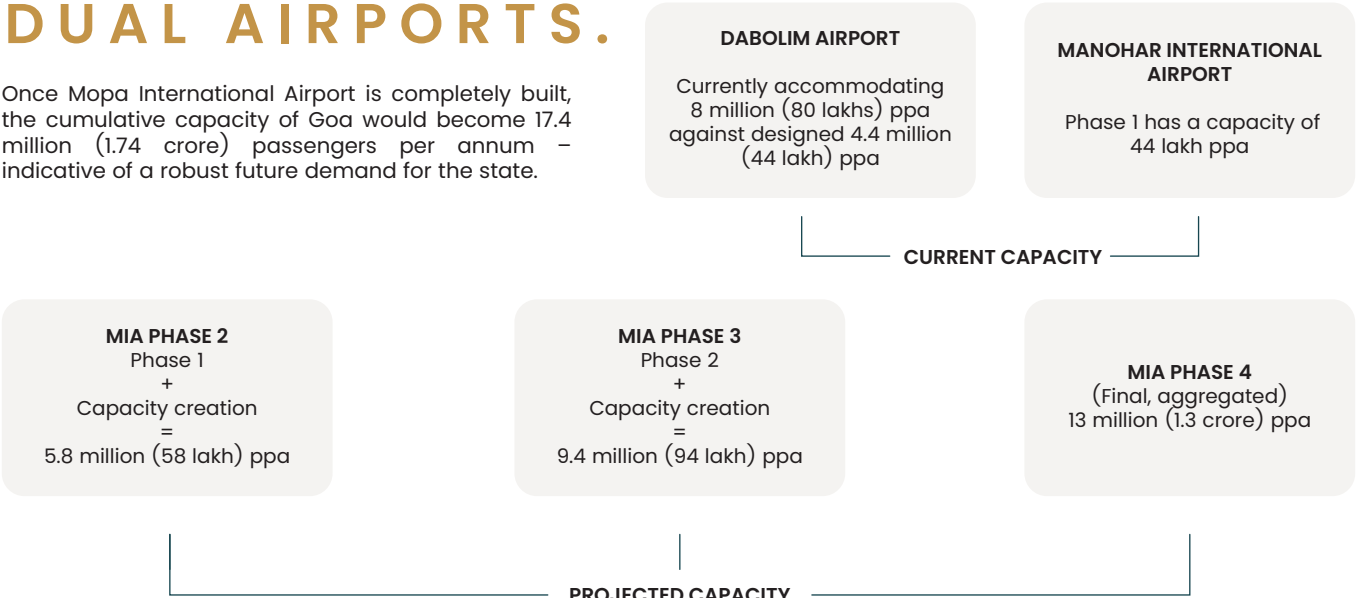

IMPACT OF MANOHAR INTERNATIONAL AIRPORT (MOPA).

- Manohar International Airport (MIA) at Mopa has ushered in international flights and is set to drive property prices upwards by an estimated 27-30%, with a positive spillover to regions adjacent to north-east Goa.
- Goa will not only remain a beach tourist hub but also diversify into wellness and nature tourism: One may envision eco-friendly resorts, forest lodges and wellness retreats.

IMPACT OF DUAL AIRPORTS.

Once Mopa International Airport is completely built, the cumulative capacity of Goa would become 17.4 million (1.74 crore) passengers per annum – indicative of a robust future demand for the state.

ppa: passengers per annum

SURGE IN PRIVATE JETS AND CHARTER FLIGHTS.

Private jet operators have experienced a 60% increase in enquiries*, highlighting the growing demand for luxury travel to Goa, especially from cities like Delhi, Mumbai and Pune. Charter flights to Goa have surged, bringing tourists from the US, Australia, Russia, Kazakhstan and Israel, including affluent HNI travellers.

IN *Goa*, SCARCITY IS THE NEW LUXURY

LIMITED CLEAR-TITLED ASSETS

Goa's unique land laws, fragmented ownership and inheritance complexities have made clear-titled land parcels exceptionally rare. For buyers, this means genuine, legally vetted inventory is hard to come by – making every clear-titled asset a coveted find.

STRICT DOMICILE REGULATIONS

The Goa government has introduced increasingly stringent regulations to protect local land ownership. These policies, combined with complex due diligence requirements, further limit access for outside investors – turning compliant projects into prized investment vehicles.

GROWING DEMAND IN GOAN REAL ESTATE

With the surge in luxury tourism, infrastructure expansion and aspirational living, Goa's real estate is witnessing unprecedented demand from HNIs, millennials and global Indians. **According to Sotheby's International Realty, more than 35% of HNIs are actively planning to invest in Goan real estate.**

UNAVAILABILITY OF BRANDED PROJECTS

Despite its popularity, Goa has an acute shortage of high-quality, branded real estate. Most developments are fragmented, unorganized and lack institutional grade standards – making projects by trusted national players few and far between.

“

According to Magicbricks, while **demand is surging by over 10%**, the available **supply is simultaneously falling by 10%**. In such a scarcity-driven market, trusted, branded and clear-titled opportunities are not just rare – they're nearly non-existent.
